- This class was a turbo class for 2 hours and 30 mins. The professor did a great job at keeping us engaged. He is very understanding and knowledgeable on the subject matter. He was great.
- Very good teacher, did the best he can with a class that did not give much due to it being an Econ turbo on a Tuesday night which no one wants to be in, not because we do not like the teacher or how he teaches but the course is its self. Great teacher I would definitely take his class again just maybe not as a turbo on a Tuesday night
- Overall, this was a good class and good instructor. I learned a lot of material in a short amount of time.
- Michael Gallagher is a good man, and I thoroughly enjoyed this course. The tests were occasionally very difficult as a result of obscure material from the textbook taking a prominent role in the test, but if that is improved this course can definitely be considered excellent.
- He was a nice guy and all, but the course wasn't the best. It being a turbo had a lot to do with it. It was a tough course, but it could have been made easier if the expectations were clearer.
- great professor. i had no interest in taking macro. i did it because i had to, but he without a doubt made it worth taking....great guy
- I'm very happy about the course and the achievements we accomplished together
